The meeting was called to order by Noble Grand Horace S. Kenyon. In a dialogue between the noble grand and Vice Grand B. ### Lucky Tigre Nearly Ready

PROF. HOFFMAN, EMINENT AUTHORITY ON METALLURGY.

Who is Preparing the Mill Plans, Reports Same as Nearly Ready—Machinery Can Be Built and Delivered Within Forty Days—New Smelter Superintendent Arrives.

(Special to Review.)

Douglas, April 29.—B. F. Graham, president of the El Tigre Mining company, stated today that he was in receipt of a letter from Prof. Ottaker Hoffman, the consulting engineer of the company, who has been designing and drawing plans for the mill to be erected at the El Tigre mine, saying that everything was nearly ready for the orders for the necessary machinery. Prof. Hoffman lives at Argentine, Kansas, and is one of the highest authorities on metallurgy in the country. He has planned the El Tigre mill after a thorough study of the ores taken from the property.

Mr. Graham says he has already consulted machinery and foundry houses and finds that the machinery can be turned out much quicker than he expected, some of them guaranteeing to fill the order in forty days after its receipt.

Charles Meyers is expected to arrive at the El Tigre mine in a short time to accept the position of smelter superintendent, and will have charge of the erection of the mill, under the direction of the consulting engineer. Mr. Meyers comes from Abino, Durango, Mexico, and is a mining man of long experience, having handled successfully several properties in Mexico. Returns have been received by Mr. Graham for the last car of ore shipped from El Tigre. The returns were satisfactory, the net receipts from the car being a little over ten thousand dollars. The ore contained values as follows: Silver, 371.2 ounces; gold, 21.2 ounces; copper, 1.18 per cent, lead, 13 per cent.

Recently there has been trouble in getting the ore packed from the mine to the railroad, a great many of the packers quit on account of the dry weather. Ore is being sacked at the mines at the rate of about \$1000 per day. Mr. Graham has sent to Chihuahua to get a new force of packers, and hopes soon to have the ore going out as fast as it is taken out and sacked.

#### For a \$250 Purse.

In regard to the challenge made by the Douglas team to bowl the El Paso team for a purse of \$250, Manager Orr stated that it was practically certain that the match game for the money would be played. The only thing the El Paso boys objected to was paying full railroad fare. Now that they are coming to the convention anyhow, there will be no reason why they should refuse to play for the purse, and Mr. Orr understands that the arrangements are all made.

#### Some On First Trip.

The Odd Fellows returned to Bisbee this morning. They expressed themselves as well pleased with their visit to the smelter city. For some of the visitors this was the first trip to Douglas.

#### Shooting Cases Dismissed.

The general, all round, free-for-all bombardment of pistol toters was ended yesterday by the dismissal of the cases before Judge Johnson. Carrying concealed weapons comes up next. Wonder if that will be dismissed, too?

#### Gone to World's Fair.

J. M. Sparks and wife, and Miss Kate Sendry will start Sunday morning for St. Louis to visit the World's Fair. Miss Sendry was the winner of the World's Fair contest prize of two tickets to St. Louis and return offered and paid for by the International-American of Douglas. The evening paper has made many friends by means of the contest and the splendid reward to the winner.
